

Anne's Job

True or False?

1. Anne works as a nurse in a walk-in clinic.
2. She loves to work with her coworkers because they come from many different countries and backgrounds.
3. She wants to spend more time with her patients, but sometimes she can't.
4. She works 8:30 to 4:30, five days a week.
5. The starting salary for this job is about \$28 to \$29 000 a year.
6. Because she only works part-time, she doesn't get any benefits.
7. She has worked for about 40 years as a nurse.
8. Anne works in a sexual health clinic, so she usually does blood tests, other testing and treatment.
9. She studied nursing at a college for four years and she trained to become a mid-wife.
10. She got the job because she was hard-working and interesting.
11. She has done a lot of volunteer work.
12. She was born in New Brunswick, but she has lived all over Canada including the Northwest Territories.
13. She moved to Vancouver over 20 years ago.
14. She wants a job that combines health, education, physical activity, good pay and good benefits in a warm environment.
15. Janis thinks it's funny because the job Anne wants is impossible.
